DEATH TAKES MAN BUMPED FROM BRIDGE

Chris Eisland, Who Sought Refuge on Bridge Abutment from Train, Dies in Hospital

MANDAN PAINTER VICTIM OF THANKSGIVING ACCIDENT

Attempted to Cross Missouri Bridge Yesterday Afternoon Sought Safety

In an attempt to dodge an oncoming passenger train, Chris Eisland, a Mandan painter, sought refuge on the south side of the Missouri bridge early yesterday afternoon by placing his body on an abutment parallel with the tracks, was bumped on the left side by the engine of train No. 8 and tossed 60 feet to the ground below, dying several hours later at St. Alexius hospital in this city. The body fell on the Morton county side.

EVIDENTLY INTOXICATED

The inquest called this morning in the Lucas undertaking establishment brought out testimony to the fact that Eisland was intoxicated, that he started from the east end of the bridge to cross, that the train whistled as it neared the structure and that he placed himself on the south side of the trestle to avoid the danger. It was stated that he got down on his hands and knees and turned his head away, toward the east, from the slowly approaching eastbound train. Two Indian boys from the Indian school and a clerk at the school said that a broken bottle of whiskey was found near where body was struck.

Inquest Takes Adjournment.

Members of the jury at the inquest were Orris W. Roberts, W. G. Wilcox and A. F. McDonald, who heard the testimony of Menry Hartley, a laborer living at 206 Mandan avenue; Charles M. Laughlin, a clerk at the Indian school; Frank Young Eagle and George Gillett, two boys skating on the river at the time of the accident, and students at the Indian school. At 11 o'clock the inquest took adjournment until late this evening when the testimony from the members of the crew will be taken.

Picked up by pasengers and members of the train crew, the injured men was taken aboard the train, rushed to the hospital, being entered about 4 o'clock, and died an hour later regaining consciousness. The accident happened about 2:30 or 3 o'clock. The man was identified by Chief of Police Downing as Chris Eisland.

Suffered Fractured Skull.

Dr. Strauss of the medical firm of Roan, Fisher & Strauss, took charge of the case. A fractured skull, a badly bruised shoulder and left-side, coupled with internal injuries caused his death, which will in all probability be the sense of the coroner's verdict

Efforts to learn of any relatives brought out the fact that he had a sister living at Wilcox, N. D. Services will be arranged under her direction. She was notified this morning.

Testimony of Hartley.

Henry Hartley, living at 206 Mandan avenue, was the first witness to testify. He stated that he was in the vicinity of the bridge at the time, that he had taken his wheel and intended to spend the day. The accident, he said, happened about 2:30 o'clock, and that the train struck the man. Hartley testified that Eisland started from "this end of the bridge." Hartley said he saw the train approaching from the west and the "fellow standing on the bridge."

"It threw him off on the south side," said the witness. "It looked to me as though he fell pretty close to the west pier."

Wanted Company to Mandan.

Charles M. Laughlin, a clerk at the Bismarck Indian school, said the accident victim "walked as if he were two-thirds full."

"I saw him on the east side of the bridge," said Laughlin, "and he asked me to go with him to Mandan. He talked like he was drunk and he smelt strong of liquor. It was whiskey." He testified that, coming over from the west end, it would be a distance of about 200 yards before the bridge would come into view. He said the train struck the man and that he fell on the Morton county side, that the train went ahead about 100 feet toward the east end, stopped, backed up and that he saw several go below and pick up the body.

Indian Boy Skating on River.

Frank Young Eagle told the jurors he is "going on sixteen" and that "I'se going to school at the Injun school." He said he was skating on the west side of the river yesterday afternoon and that he saw a man walking across the trestle from the east side and that when he heard the train's whistle this man lay down.

"The train went a little ways and

WEATHER NOTHING UNUSUAL SAYS ROBERTS

Forecaster Recalls December 10, 1890 When Temperature Was 64 This Noon It Was 40

"Chimmy" rolled out of his little bed this morning, peeped outside, called his sister, Mary, and the two stood under a curtain with the window wide open, watching the prettiest sunrise ever seen in North Dakota for this time of the year.

Right there and then, "Chimmy" was undecided he was in a quandary whether to obey his mother's command and dress for play or roll over for a longer nap.

Great December Weather.

Great December weather thought every kid enjoying a week-end vacation. And the kids were not the only ones to comment on it, either. Forecaster Roberts was busy at his government observatory taking notes.

"This kind of weather is nothing unusual for North Dakota," he declared, after consulting his records. He stated that it was 40 degrees above at noon, or about 10 degrees above the normal.

64 Degrees in 1890.

And then a pencil went down the record sheet and stopped. Crissey's dope on North Dakota weather had been given another blow. His pencil pointed to December 10, 1890, when the maximum for the day was 64 degrees.

"Doesn't look much like deep snow, high, sweeping winds and zero temperatures," he said.

And Yesterday Was Thanksgiving.

And yesterday was Thanksgiving, the last day of November, with just such a beautiful day, and today even warmer the 1st of December.

Out on the golf links yesterday, from an early hour in the morning until a setting November sun fell to sleep, golfers played out of doors. Not far from the Country club links, a few men in flannel sweaters buffeted little balls around.

No! No! Not Snowballs.

No! No! Crissey, they were not snowballs, but tennis balls. Down one of the country roads came several women on horseback. They passed several big auto cars of jollymakers. Joy-riding the last of November in North Dakota sounds doubtful, but residents of Bismarck will vouch for the fact and that it even continued into the evening hours. In the downtown district men were at work paving.

Skating, Too, an Offering.

Surely, residents of North Dakota had much to be thankful for yesterday. Besides the tennis and golf games which were played, there was a party of skaters on Apple creek.

Spring Coats Blooming.

Winter coats and furs were somewhat out of place on the streets yesterday in the Thanksgiving parade of fall toggery. Instead, men appeared in spring coats and women in fall suits. In the hotels and the ice cream parlors, where many flocked, the doors of the places of business were wide open.

This Hits the Climax.

Out on grandma and grandpa's place a story comes that a bunch of jolly Thanksgiving people got together, piled into a hayrack and went rollicking over the prairies for a great time to settle the big Thanksgiving meal.

And then from Steele comes the report that several of the baseball fans of that village got out and played a little hand ball "just to limber up."

There is nothing yet in sight at the weather bureau to knock this great spring-like weather. The forecaster is not at all aroused, simply saying that it's nothing unusual for North Dakota.

BRITISH NAVY REORGANIZED

London, Dec. 1. The shake-up in the British navy was greeted enthusiastically by the country. Admiral Jellicoe becomes first sea lord. Sir David Beatty is now in command of the grand fleet.

Admiral Sir Henry B. Jackson obtains an honorable and comfortable post. Thus four important figures formerly in control of the navy have passed from Whitehall since the war began. These are: Prince Louis of Battenberg, Baron Fisher and Admiral Jackson, all of whom were first sea lords, and Winston Spencer Churchill, who was first lord of the admiralty.

Berlin, Dec. 1. Semi-official dispatches state that the Germans will release the Dutch packet steamer, Koningen Regentes, recently taken into Zeebrugge by a German submarine. The mail will be retained for an investigation for contraband.

CITY TO OPEN ROAD TO RIVER UNDER TRACKS

Real Highway Will Be Constructed and Grade Crossing Abolished

COMMERCIAL CLUB BOARD BACKS BIG IMPROVEMENT

Mandan and Bismarck Join Hands in Making Red Trail Better Highway

A real road to the river, with the dangerous grade crossing over the Northern Pacific tracks abolished thorugh the medium of a viaduct, with permanent ferry landings on both sides of the river and real ferry service every day during the season, was a popular program worked out yesterday at a joint meeting of the river crossing committees of the Mandan and Bismarck Commerical clubs, with members of the city commission.

Never Had Real Road.

Bismarck has never had a real road to the river. The present winding, twisting cow-path runs over private lands for a greater part of the way, and has been partially fenced up. Turns are so frequent and so abrupt as to constitute a real danger: the grades are poor, and the crossing over the North Pacific tracks, at the crest of a steep rise, and approached from the east after a sharp turn, has frequently placed lives in jeopardy.

Clubs Have Been Working.

The Bismarck and Mandan Commercial clubs have both worked diligently during the past season upon the improvement of river approaches. On the Mandan side, the Commercial club already has a new road graded through the bottoms, paralleling the Northern Pacific tracks more than half way to the river, and to be completed early in the spring.

Get Real Action.

Yesterday the clubs of the Twin Cities determined time had come for definite action on the part of Bismarck. A joint meeting was arranged. L. A. Tavis, at the head of the Mandan committee, came over on No. 4, and a session was held in the office of Chairman E. A. Hughes of the Bismarck committee, with President A. W. Lucas, Commissioner Battey and City Engineer Atkinson in attendance. A junket to the river followed. A route for the new road was determined; the necessity of a viaduct under the Northern Pacific tracks was recognized, and there were drafted recommendations which will be submitted to the city commission Monday evening, and which are expected to have the hearty support of every citizen of Bismarck.

Real Ferry.

Enterprising Mandan citizens are investing $6,000 in a real ferry boat, capable of handling eight cars, and they will spend from $1,000 to $2,000 more in permanent approaches on both sides of the river. The Bismarck road will run straight to the river and turn. The approach on this side will be located where the road first strikes the river, eliminating the present long drive.

GERMANY READY TO END WAR

Berlin, Dec. 1. (By Wireless to Sayville). In an address to the Reichstag in introducing the manpower bill, Chancellor von Bethmann-Hollweg again announced that Germany was ready to end the war by a peace guaranteeing the existence and future of the nation.

FEDERAL INSPECTORS WATCHING GRAIN

Minnapolis, Minn., Nec. 1. Federal grain inspectors today took their place shoulder to shoulder with state grain inspectors, and watched every car of incoming grain at the Minneapolis.

One of the arguments of recent political agitators in the wave that swept North Dakota, was that grain shipped to this market was improperly graded by state graders. The addition of federal graders is construed as a victory for the farmer politicians of the Dakotas.

GREECE MUST SUBMIT TO ALL DEMANDS

Admiral Du Fournet Says He Will Do All to Avoid Bloodshed

APPEAL ADDRESSED TO NEUTRAL COUNTRIES

German Consuls Have Been Deported to Malta by Entente Powers

RIOTS IN STREETS.

London, Dec. 1. News dispatches report a slight outbreak of rioting in the streets of Athens with several shots being fired. Quiet was restored.

London, Dec. 1. The Allies are preparing to land troops on Greek soil and force compliance with Admiral Du Fournet's disarmament order. Du Fournet is quoted as saying:

"I shall land French, British and Italian troops to force compliance with my order. I am attempting to avoid bloodshed where possible."

ANXIETY FELT.

Athens, Dec. 1. Dispatches report greatest anxiety. Teutonic consuls deported to Malta. The control of postoffices and telegraph lines taken by the government. The Greek garrison has withdrawn inland, taking with it all the available war supplies.

Reuter's Athens correspondent says that the appeal addressed by the Greek government to neutral nations recapitulated events in Greece since the outbreak of the war, which are represented as "trials supported with dignity."

Wounds Spirit.

In regard to the demand of Vice Admiral Du Fournet, commander of the allied squadron, for the surrender of war materials, the government says it is supported by the whole country in rejecting the demand, which not only wounds the national self-esteem, but infringes the sovereignty of the nation.

Notwithstanding all that has happened, the appeal says, the government is confident Greece will emerge from the crisis "weakened, it is true, but nevertheless able to reorganize her forces and fulfill her duty toward Hellenism."

King Constantine formally advised Vice Admiral Du Fournet that his government refused to surrender its arms and munitions to the Allies.

Thieves Raid Bartz Store at Garrison

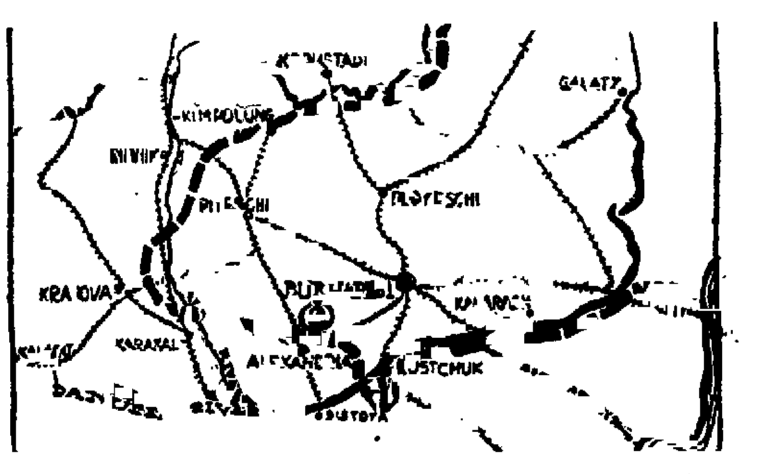
RUSSIANS START VIGOROUS OFFENSIVE IN ORDER TO SAVE BUCHAREST FROM FALLING INTO HANDS OF MACKENSEN AND FALKENHAYN FORCES

HOW TEUTONS ARE CLOSING IN ON BUCHAREST



This map shows graphically how the Teuton armies are threatening Bucharest, the Rumanian capital. At (1) German forces from Bulgaria crossed the Danube, and at (3) met Mackensen's armies, who had advanced along the railroad from Krajova (Cralova). There are still Rumanian forces beleaguered behind the new German lines.

REIGN OF TERROR IN CHIHUAHUA SAY REFUGEES

Dead Bodies Piled High in Streets of Captured City

VICTIMS COVERED WITH OIL; PUBLICLY BURNED

HEAR FIRING.

El Paso, Dec. 1. Shortly before daybreak firing began four miles south of Juarez. Fifty shots were heard on the American side of the border. All efforts to learn the cause of the firing failed.

Juarez, Dec. 1. The remnant Carranzista army that fled from Chihuahua City is camping on the plains south of Juarez. It brought stories of the evacuation of the city. A reign of terror followed Villa's evacuation, the soldiers say. Dead bodies were piled high on the streets and covered with oil and burned. Many civilians fled after Villistas took Santa Rosa hill, which is the key to Chihuahua. The Carranzistas finding that defense of the city was futile, retreated.

Several Juarez residents, thinking that Villa has begun an attack upon the city, rushed across the border. Strong Carranza forces, however, have been rushed to the border near here. United States military authorities think that only roving bands of Villistas were sighted. Carranza troopers, survivors of the battle of Chihuahua City, continue to arrive.

Tuesday, after capturing Chihuahua City, Villa began slaughtering Chinese residents of the city, four refugees said today. More than fifty Chinese were filled when the refugees escaped. With these reports little hope is entertained for safety of Americans.

Firm Policy Intended.

Washington, Dec. 1. The United Press today learned that a firmer policy toward Mexico is planned, if Carranza fails to deal adequately with the present vexing problems. Such a policy will be inaugurated at once, if Carranza is unable to cope with the present uprising.

The war department said that its orders to Pershing to get Villa still stands. However, conditions are so altered that the punitive expedition will await fresh orders before making any move. If there is any chance of Villa occupying Juarez, the Americans will strike. Experts think that Villa is too crafty to start to Juarez, which is within 60 miles of Pershing's forces

If Carranza fails to meet American demands of higher respect for American property and lives, a new policy will be effective very soon. The Villista movement at Chihuahua is very puzzling. It is not thought that Pershing's forces would go hunting trouble, although they know that Villa holds Chihuahua City

Funston refuses to comment regarding the possibilities if Villa takes Juarez, except to reiterate his statement that Pershing is ready.

Washington, Dec. 1. Representative Kahn, Republican, of California, will introduce a resolution at the coming session, demanding an investigation into the allegations that American manufacturers are shipping dum dum bullets into Mexico.

SEES WAR.

Denver, Dec. 1. Villa will take Juarez within a week and this will be a signal for war between Villa and the United States, is the prediction of Major Williams of the Chicago National Guard, who has just returned from the border.

He said the United States officials are preparing to attack Villa when Juarez is captured.

GERMANY OFFERS INDEMNITY FOR SINKING MARINA

Will Apologize and Make Monetary Reparation to Families of Deceased

TO PUNISH COMMANDER OF OFFENDING CRAFT

Washington, Dec. 1. Germany is ready to pay indemnity for American lives lost in torpedoing the steamer Marina. It will also apologize for the incident and punsh the submarine commander, if developments show that the imperial government is responsible for destruction of the craft.

If a showing can be made that the vessel was sunk unjustly, reparation will be made without delay. The offer was conveyed today in Germany's formal reply to American demands.

Germany's answer, it is said here, was incomplete and contradictory and requested that the United States give Germany any information in her possession.

The circumstances are about the same as surrounded the Sussex answer when American witnesses showed that the German submarine undoubtedly was responsible. Then Germany ultimately accepted the responsibility.

RICHARD KITTEL EATS THANKSGIVING DINNER IN CASS COUNTY JAIL

Taken to Federal Prison at Leavenworth Last Night to Begin Serving Sentence

(Special to the Tribune.)

Fargo, N. D., Dec. 1. Richard C. Kittel, under a sentence of seven years and six months in the federal penitentiary at Leavenworth, was taken last night by United States Marshal S. J. Doyle to that institution to begin serving his sentence.

Thanksgiving in Jail.

Richard C. Kittle, former prominent and respected banker of Caselton, by some irony of fate, was committed to the Cass county jail on Thanksgiving eve, and his Thanksgiving day dinner—his first under sentence—was served to him in the Cass county jail.

Brother Not Yet Sentenced.

William F. Kittel, the younger brother, who pleaded guilty with Richard Kittel to a series of 41 charges of misapplication of funds, falsifying banking records and making false reports to the government, has not been sentenced yet, and federal officials are not certain yet just when he will be brought up before Judge Amidon. The minimum sentence is five years.

Operations in the First National bank of Casselton, of which Richard Kittel was president, and of which W. F. Kittel was cashier, are responsible for the present plight of the two brothers.

Brothers Pleaded Guilty.

During their trial in the federal court here, after the government had completed its case, the brother defendants abandoned their fight and pleaded guilty.

The Casselton bank affairs came to a climax a year ago, when the institution failed to open. Since then, directors of the institution joined hands, put up sufficient cash to care for the bank's liabilities, and it is now under operation in first-class shape, depositors not losing any money.

LIKE MARNE BATTLE

Entente Powers To Turn Tide as They Did When Paris Was Saved

RUSSIA IS ACTIVE ON EAST FRONT

Central Powers Army Moving on Toward Capital of Balkan State

PREPARING FOR WORST.

Rome, Dec. 1. Dispatches to newspapers here say that the civilian population is leaving Bucharest and that the military officials are making desperate efforts to defend it against the approaching invaders.

Vienna, Dec. 1. Russians are putting forward a supreme effort to relieve Rumania. In their ability to rush reserves to the retreating Rumanians, lies the only hope of saving Bucharest from falling into the hands of the Central Powers. On all fronts there is an effort to engage Teuton forces in order to relieve the terrific pressure on Rumania because of the union of Mackensen's and Falkenhayn's armies.

Vigorous Offensive.

Special dispatches from Petrograd report a vigorous offensive along the entire Carpathian front. This movement is the strongest possible and is staged only to assist the struggling Balkan state from the fate that Servia met.

In some places there is hand-to-hand fighting, and the most dramatic struggle in the history of the war is being waged to save the "Paris of the East" from the Teuton foes.

According to Paris, Bucharest's fate hangs upon the ability of the Russian reservists to check the invaders. Joffre saved Paris in the battle of the Marne in a like situation.

Rumanians Flee.

A correspondent of the Lokal Anzeiger telegraphs that the German troops which advanced east of the Alt valley outflanked the Rumanians on the northern part of the river, and, that hundreds of the Rumanians surrendered, the others disbanding and fleeing into the mountains. In consequence of this move, the Austrians and Germans were able to break through Rothenthurm pass at the narrowest point almost without loss and advance southward without encountering resistance.

The Rumanians fled in panic, as is shown by the large number of prisoners taken recently and also by the fact that captured trenches were found filled with war material of all kinds. Rifles still ready for firing, the correspondent says, were lying before the trenches, pointed toward the former Austro-German positions.

It is frankly admitted in Paris that the defeat of the Roumanians will be very vexatious to the Allies' plans. It is agreed that if the Germans are successful in supressing the Roumanian army and shortening the Teutonic eastern front by a direct line through Bessarabia to the Black sea, the war will be lengthened. Many German troops will be released and afford greater freedom for maneuvering in the Balkans. If Germany can hold Roumania, she will obtain much needed supplies and such a victory will serve, say experts, to raise the German spirit.

Official entry of German lines near Armentiers is reported. Attempted Teuton raids on the trench near Neuve Chapell was repulsed.

Large German forces in German East Africa have been captured and the Teutonic armies in that section have divided and retreated.

Petrograd advices state that the Russian offensive in the Carpathians near Kirlibaba is proceeding successfully.

Pursue Rumanians.

The Germans are pursuing the Russians cut off by Mackensen. Yesterday over 300 prisoners were taken. The Rumanians are trying to escape by changing the route of their retreat.

Reuters' dispatches say that the retreating Rumanians are destroying grain stores and oil in sections of their country menaced by the enemy. Rumania's grain and oil is exceedingly rich booty.

Official dispatches relate advances along the road to Bucharest from Giuregevo on the part of the Bulgarians. Russia suffers heavily at some points along the Balkan front.

Rome dispatches state that fresh Russian army corps are forming to resist the Wallachian Teutonic advance.

Six miles south of Pitesci along the Goless front, the Rumanians are engaged in violent engagements with the Teutons. Several hundred prisoners and ten machine guns have been captured.

Vienna reports a heavy Russian offensive between Usevelly and Tartar pass.

There is little of importance on the West front.

GIRLS SELL THEIR TIN-FOIL TO RAISE FUND FOR PARTIES

Appleton, Wis., Dec. 1 Prevented by the high cost of living from giving as many dancing parties as they wished, the Kappa Alpha Theta sorority of Lawrence college, has hit upon the plan of collecting tin-foil, selling it for 50 cents a pound and using the proceeds for dance money. Other sororities are adopting the sceme, while in the meantime curls have gone out of fashion at Lawrence college.

GOLDEN CASE GOES OVER ANOTHER TERM AT MINOT

Minot, N. D., Dec. 1 Edward Golden, arrested on a charge of first degree murder growing out of the notorious negro dance in the negro section of the city in which Frank Gregg was killed and for which Claude Peoples was found guilty and sentenced to serve life in the state penitentiary, waived his preliminary examination, and will be tried at the February term of the district court.

"GET INTO GAME AND NOT PLAY GRANDSTAND," ADVICE

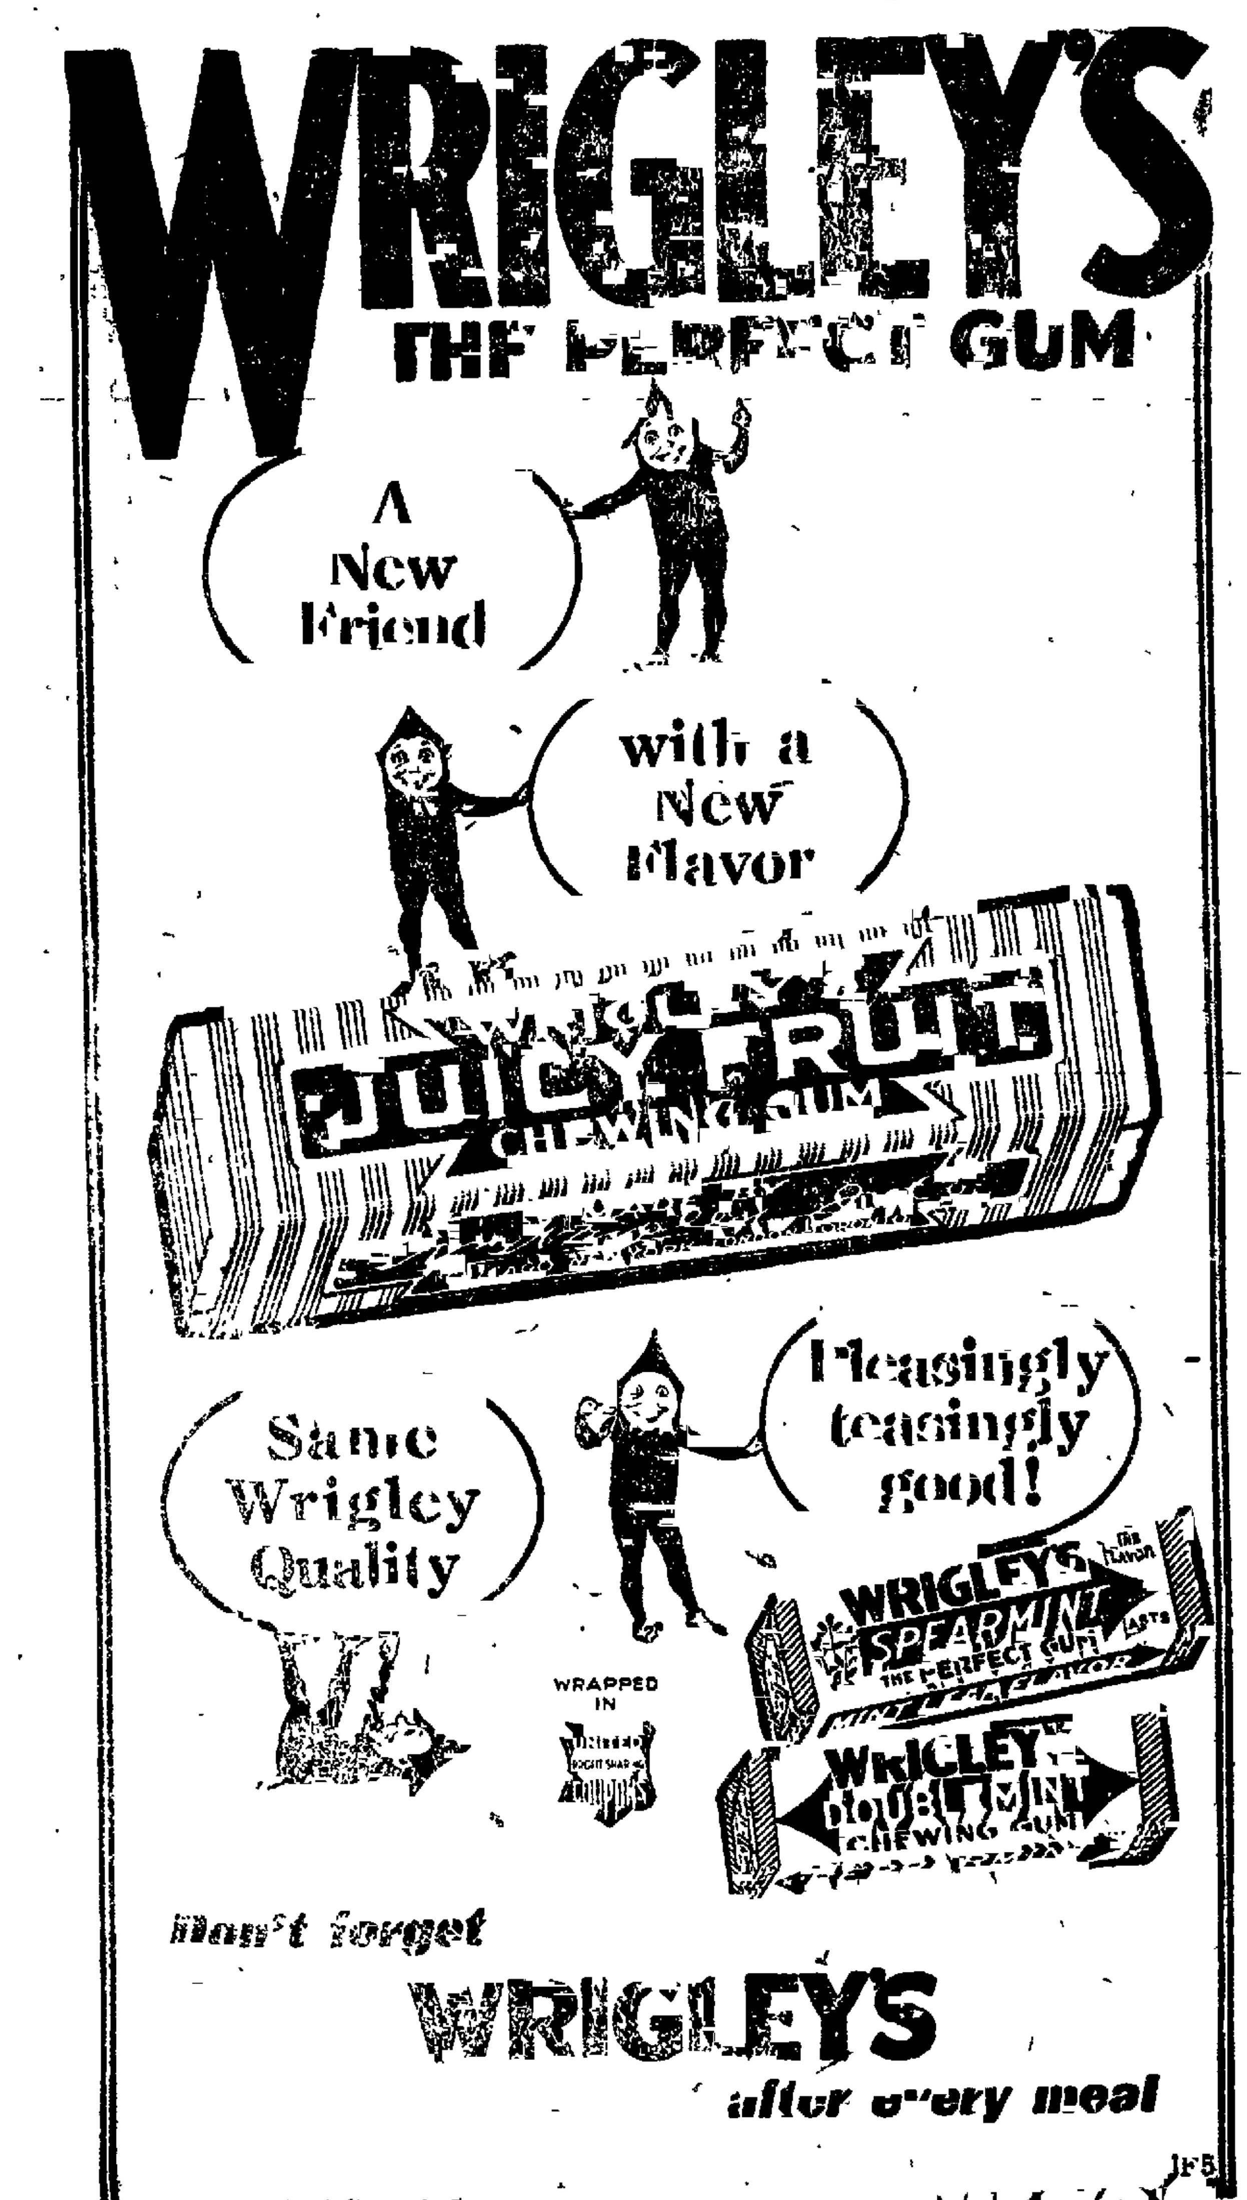
Valley City, N D., Dec. 1 Live in the active voice, live in the indicative mood, live in the present tense, live in the first person, and live in the singular number, were the five points emphasized in the address of President McFarland before the student body of Valley City at the chapel exercises this week. In his explanation of "live in the singular," he said one should seek the approval of his or her conscience instead of the applause of the multitude, or in other words, to "get into the game and not play the grandstand."

DAKOTAN HELD AS SWINDLER GIVES HIS WIFE LAST—$7.00

St. Paul, Minn., Dec. 1 Little two-year-old Rosey Marthaler hugged her father, Jacob Marthaler, alleged farmer and "sky-pilot" swindler, in his cell a police headquarters yesterday. Marthaler wept as he gave his meagre savings to his wife for Thanksgiving dinner. There was but $7.

"Make a good Thanksgiving for the children," he said. "We are Americans now, and even if you have only what I gave you, make the day a time for gladness and thanksgiving."

Charles Brown, chief of the protective department of the Minnesota Bankers' association, charges that Marthaler cashed a forged personal check on the First State bank at Underwood, N. D., for $1,100. He has been identified, it is said.



NEAR PANIC IN THEATRE

Confusion in Ruby Theater at Jamestown Last Night When Films Caught Fire.

(By a Special Correspondent.)

Jamestown, N. D., Nov. 29. One hundred people attending the Ruby theater, a motion picture house, were thrown into a panic here last night, when fire originated in the operator's booth. Two reels of film were destroyed and the operator, Jo Gregg, was burned slightly. The blaze was extinguished before the fire department arrived. No one was injured seriously.

MRS. GEORGE RITCHEY OF MANDAN; IS DEAD

Death Occurred Wednesday Morning Funeral Held Today at 2 O'Clock

The day before Mrs. George Ritchey of this city was to celebrate her 30th wedding anniversary, she answered the call of the Master above, bringing an end to weeks of untold suffering. Death came not unexpectedly.

She passed away in the presence of her family at 8:16 o'clock Wednesday evening, death being due to a chronic illness, which for many days puzzled physicians.

Miss Anna Amelia Eger was born in Red Wing, Minn., Aug. 31, 1871. Her family moved to the place where Stanton is now located and there lived the life of pioneers. She was married to George Washington Ritchey Nov. 30, 1886. If she had lived until Thanksgiving day, her death would have ended just 30 years of married life.

Mrs. Ritchey was the mother of four children Gertrude Blanche, William Earl, Ruth Mary and Gladys Violet, all of whom were at the bedside. When Mrs. Ritchey was but three years old her mother passed away on Thanksgiving day.

Mrs. Ritchey was one of the early settlers of this state and popular in both Morton, Oliver and Mercer counties, where she was well known.

The funeral services will be held from the Methodist church this afternoon at 2 o'clock. Rev. R. R. Hedtke will be in charge.

Besides her immediate family, Mrs. Ritchey leaves a sister, Mrs. Lucy Monlette, and her brother, Ed Eger. Her father passed away February 4, 1915. She was a member of the Lady Maccabees of the World.

FARMER INJURED WHILE DRIVING TO HIS HOME

James McPherson, better known to the pioneers of this city as "Jimmie" was seriously injured Wednesday night about 8 o'clock while driving to his home a few miles south of Mandan with a load of wood.

Mr. McPherson was driving near the George Welch place, and in the dark his horses stepped to one side of the road. A bad trench was in the old road in which the wagon slid and tipped over, throwing the driver out and injuring his back and neck. He was rendered unconscious.

MANDAN MAN STRUCK BY AUTO--RIGHT LEG HURT

M. J. Hunke was struck by a Ford automobile speeding at the rate of about 25 miles per hour Wednesday night about 7 o'clock. He was knocked down, the car passing over his limbs and badly cutting his right leg below the knee. In falling his head struck the pavement with such force that he was rendered unconscious. At this time Mr. Huke is resting comfortably in the west end of the city.

Mrs. Anson Bartlett and Con Caddell were walking behind Mr. Hunke a short distance and saw him when the accident occurred. The car is believed to have been a Ford, which was open and contained three men. No lights were on the car and it made practically no noise rushing along the smooth pavement at the speed it was going.

The driver made no effort to stop the car when he struck Mr. Hunke but, without hesitation, speeded all the faster. An effort was made to try to locate the machine and occupants after the accident, but no one could be found and no car was taken to any of the city garages that night answering the description of the car in question.

Quick Cold Relief

is usually found through the prompt administration of a mildly laxative, dispersive tonic one that will scatter the inflammation, remove the waste, and help Nature to build up resistance.

Peruna is That Tonic.

Its action is prompt, usually very effective, and its use is without harmful effects. Every household should keep it at hand for this purpose, and every catarrhal sufferer should regularly use this reliable remedy.

The tablet form will be found very convenient. A tablet or two at the very beginning of a cold will frequently prevent its development, and these tablets may be taken regularly with beneficial results.

Many prefer the liquid form which for nearly half a century has been the reliance of the American Home.

Both are good. Your druggist can supply you.

The why-and-wherefore of brawn and scrawn has been the study of the most famous physicians.

translates itself into brawn. In itself, SAWTAY is an energy-food. It is not concocted, hydrogenated or adulterated, but wholly and solely the pure butter of tropical nuts just as Nature made it.

SAWTAY is more readily digested and more completely assimilated than creamery butter.

Your children will probably be brawny instead of scrawny, if you bake, fry and shorten their food with SAWTAY.

SAWTAY SPREAD FOR BREAD OR CRACKERS ½ cupful SAWTAY, 1 cupful powdered sugar, white of one egg, one teaspoon vanilla extract, cream SAWTAY and sugar, add white of egg unbeaten and vanilla, beat together thoroughly; then spread on crackers, ginger snaps, saltines, biscuits or bread.

City's Lure Too Much For Mary

Chicago, Dec. 1. Mary Alice Smith is back!

Out on a quiet, dreary farm in Amboy, Ill., where she thought she could find love, a real home and a fortune, Mary has heard the tempting call of the big city and answered.

A little over a year ago Mary drew drew her $12 a week as stenographer in a Chicago real estate office and sighed. There would be hardly enough for a "movie" show after she paid for room rent, meals and laundry.

Oh, for a real, quiet home where she could have someone to love and laugh with. Anywhere, to get away from the crushing, pushing city of unsympathetic crowds.

James Pankhurst, Amboy farmer, advertised for a "daughter," who would inherit $10,000 if she would remain with him and his wife during their life and remain unmarried.

Mary was chosen from among 2,000 applicants.

Could she forget Chicago's loop for $10,000?

She said she could. And just two months ago she said she was satisfied with farm life she would never again return to the heartless, friendless city.

But now she is back in Chicago.

"Chickens and pigs and cows are nice in their way," she says, "but they are not so nice as the city.

"Oh, the city is so big and friendly and home-like. And it grows so dull and frozen and bleak in the open.

"I never had a caller down on the farm. It was part of the agreement that I was not to marry. I am not crazy for the company of young men, but I do like to meet them."

Mary has tried the quiet, romantic, $10,000 life on the farm with the hustling, bustling, $12 life in the city and picked the latter.

DISTRICT SHOPS FOR MANDAN SAYS OFFICIAL

General Manager Rapelje of the Northern Pacific, who has headquarters at St Paul, passed through Mandan Tuesday morning on belated No. 3 enroute to Helena, Mont., on an important business mission. Mr. Rapelje did not reveal the important mission "whys and wherefores" and declined when questioned on the matter, but, nevertheless, gave the assurance it was of great importance. Mr. Rapelje stated authoritatively that Mandan will some day have district shops, but just when the building will be started he did not know. He spoke of the remarkable business the company was doing and said he expected it would last for a number of months.

"AMERICA AT PEACE" SAYS DR. HUTCHESON

Cites This As Reason for Thanksgiving in Sermon at Presbyterian Church

HILLS NOT DOTTED WITH SLAIN, SAYS THE PASTOR

"Our hills are not dotted with the slain, the rivers are not stained with the life-blood of our countrymen and, though the world in the East seems to have gone mad with the lust of war, America is at peace."

This was one of the striking statements made by Dr. W. J. Hutcheson, pastor of the McCabe Methodist church, in his Thanksgiving sermon, delivered at the union services in the Presbyterian church yesterday morning.

Able to Render Assistance.

"We need to express our Thanksgiving because a large prosperity is ours and we are enabled out of that prosperity to render assistance to those in Europe who are dying for want of the ordinary requirements of life," said the pastor. "American money, food, clothing, nurses and doctors are being sent to the stricken lives and our gifts are, in some small measure, declaring our thankfulness to God for our privileged position.

Comes a Revelation.

"We are to indulge in Thanksgiving becauhe there has come to us a revelation of the 'instability of human philosophy and culture and material power and intellectual pride,' and with that revelation there has been discovered a sincere desire to return to God and work righteousness. The men and religion forward movement of a few years ago called the attention of the world to the work of men.

"Today the men are awakening as never before. The Stonemen of Philadelphia and other similar organizations are loudly proclaiming the fact that men are returning to God. We are to render thanksgiving because there is a divine alchemy which can turn our sorrows into joy, darkness into light, our bondage into liberty and our honest doubt into a living faith, and because over us all, there is a loving Father, anxious to assist us in reaching the highest type of Christian endeavor."

In concluding his sermon, Dr. Hutcheson said "then let us remember the benefits of God. Let us play the 'glad game,' emphasized by that wonderful little lady, 'Pollyanna,' and let us so cultivate our memories that seeing, as in panorama, the lavish displays of the prodigal kindness of God we may render thanksgiving to the Highest and not forget."

Dr. Hutcheson emphasized that "we are apt to take gifts as a matter of gratitude and never for one moment indulge in any sincere expression of gratitude." He said last Christmas thousands of letters were addressed to Santa Claus, went to the dead letter office, but that only one came during January to tell Santa how grateful the recipient was.

Many at Services

Large congregations worshipped in the Presbyterian, Trinity Lutheran and St. Mary's cathedral Thanksgiving day.

At the Presbyterian church a union service of the McCabe Methodist Episcopal, First Baptist and Presbyterian church was held. Dr. W. J. Hutcheson of the McCabe church, preached a sermon. He was assisted by Rev. H. C. Postlewaite, pastor of the Presbyterian church, and Rev. Bruce Jackson of the Baptist church. Special music was given by the Presbyterian church choir.

Mass was celebrated at St. Mary's cathedral, and was attended by hundreds of people. Rev. Father Hiltner, assisted by Rev. Father Ott conducted the services. Special Thanksgiving music was given by the choir.

The service at Trinity Lutheran church was conducted last evening at 7:30 o'clock and was in charge of the Rev. F. C. Proehl and the Rev. Svore. Special music also feature at this service.

DERAILED FREIGHT CAR DELAYS PASSENGER TRAIN

A derailed freight car at McKenzie on Friday caused a tie-up which delayed No. 3 an hour and thirty minutes. No damage was done, aside from the nick put in No. 3's "on time" record.

FIRE DESTROYS FARM BUILDINGS AND STOCK

Egeland, N. D., Nov. 28 The house, barn, chicken house, with nine head of horses, feed and all household furniture on the Orville Canfield farm, about 12 miles east of Cando, were destroyed by fire yesterday. The fire was discovered about 7 o'clock in the morning. The loss is heavy.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then a bad breath a dull tired feeling sick headache torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

A CLEAN BISMARCK.

There is every evidence that a new era has dawned for Bismarck. The year that is now in its twelfth month has been one of progress and achievement. This city faces the future with a determination to continue its growth unhampered by an element which refuses to admit that the order of things has changed.

The Tribune has had occasion from time to time to comment upon the illegal sale of liquor and the tolerance of certain characters within our confines. Under a lax administration of the prohibition laws, conditions have reached a state that need remedying without delay.

But the steps should be taken through the regular legal channels, the states attorney's office, the sheriff and the city police administration.

Since the recent agitation in the Tribune, some improvement is noted in the handling of police court cases. The attendance of City Atorney McCurdy each day at the sessions of the court has had beneficial results.

Some concerted action, however, involving the co-operation of state, county and city authorities is necessary to rid Bismarck of bootleggers and blindpiggers. An effective weapon has been placed in Attorney General Linde's hand in the ratification of the bootlegger law at the recent election. That he will use it when the law is finally certified, there seems little qquestion.

The Tribune has no sympathy with the selfconstituted reformers or agents of law enforcement leagues, who operate through private sources. Anticipating a clean-up in Bismarck, these gentlemen have descended upon us with all their paraphernalia; their Sunday meetings; the usual "pussy-footing"; the usual demands for newspaper publicity and the usual playing upon the credulity of some excellent church people, who seem to forget that the proper agencies for law enforcement are the legal ones, not the self-appointed Catos who make a business of and profit by "reforming."

To all appeals for publicity from this class the Tribune is deaf. Even if their hearts are right; their methods are wrong. We elect public officials; we support them through the payment of taxes and they take oaths to uphold the laws; not some, but all the statutes.

The place to begin is with these hired servants of the people. It is poor policy to delegate the functions of states attorney, sheriff and police officers to the "paid reformers" who pursue the uplift movement for so much per day.

Bismarck will never have law enforcement until it insists that its public officials elected and sworn to enforce the law do their duty. It is futile to manufacture a moral wave by encouraging men who are little more than "peeping Toms."

Unfortunately some of the good people, as interested as the Tribune in seeing the prohibition laws enforced, believe that they must go outside of the legally constituted officials for relief. This fallacy is responsible for the law enforcement agents, whose activities, always spasmodic and always accompanied by brass band methods, have accomplished nothing.

Let us stir up the consciences of our public officials to their duty in the matter. Failing in that, there are other steps that can be taken much more efficacious than shifting the burden of law enforcement to the privately paid reformers.

POOR WOLF HUNTING.

Anyone from the effete east who came to the vicinity of Mandan and Bismarck with their sleds and other equipment for a wolf hunt on Thanksgiving was disappointed. If they heeded the weather dope of Forrest Crissey as given in "The Hired Man His Kick" and expected to see drifts of snow on the streets and icicles hanging from the roofs of our public buildings, they had their ideas of the veracity of the Saturday Evening Post rudely shattered.

What did they find?

The golf links in full blast.

Paving operations on the business streets.

A fine, balmy, spring-like atmosphere, which coaxed many to rid themselves of heavy wraps.

Mr. Crissey's articles hereafter should be run in the funny column of the esteemed weekly.

Probably this Palm Beach weather will hang on until Christmas and we can invite Forrest to play several rounds on the golf links.

But as for wolf hunting and sledding over mountainous drifts of snow, Forrest will have to communicate with the Arctic regions.

NEEDS NEW LEADER.

Carranza has "decided" to hold his office as First Chief of Mexico, despite his announced candidacy for the presidency. However, he states that if he "regards it as advisable," he will resign before the election is held. Right now, by resigning as first chief, Carranza might so strengthen himself with the people that his election would be fairly certain. Besides, such action would discredit Villa and, to resort to slang, "cut the ice out from under his feet" most effectually. Villa has repeatedly stated that if Carranza would resign, the revolution would end.

If Carranza has the pledge of loyalty from his lieutenants which he claims, and has the confidence in them which he asserts, he should be safe in placing the government in their hands for a short sixty days or so. Villa is gaining strength tremendously, having taken Parral, surrounded Chihuahua so that it will probably fall soon, and is reported about to occupy Torreon. All northern Mexico may be again in his control at an early date. If Carranza was a wise man, instead of a self-willed, arrogant bigot, he would yield to the advice of his friends, compromise with Villa by agreeing to resign upon a cessation of hostilities, and leave the choice of a president up to the people at an uninfluenced election. He would prove himself a real patriot and a good chief by so doing. But Carranza is not a wise man, so he will probably stick around as first chief until he goes the way of his many predecessors.

BACK FROM THE FARM!

A few months ago Mary Smith was saying she'd never, never go back to the wicked city, with its noise and dirt and cruelty.

But now Mary Smith is back in Chicago, although "Uncle Jimmy" Pankhurst and "Aunt Louisa" did their level best to get her to stay, even increasing the $10,000 legacy under promise of which the young Chicago stenographer left the Loop a year or so ago to go and live with them on country acres.

The farm became too dull for Mary; the rooster's crowing in the dewy morn, the squealing of the pigs as they fought for their evening meal of swill, lost their first charm and became mere distractions, no sweeter than the rattle of the "L" trains as they disturbed the slumbers of the city's multitudes oft in the stilly night

And why did Mary leave? She is hiding now in Chicago hiding to avoid publicity but this is what she told some of her new-found friends at Amboy, before returning to the city by the lake:

"It was too lonely. Everyone was kind and generous, and Uncle Jimmy and Aunt Louisa were lovable. But there was the city hunger always gnawing, the craving for the rush and glamor of big things being done in a hurry, and the placid, even-going life of the country could never supply it."

What was it, after all, but the call of home? The great, ugly, vibrating city was Mary Smith's home. And there is nothing mean in the smoky sunsets of Chicago as viewed from a rushing "L" train, in the hurrying crowds of the dingy west side, or the parade of fashion on Michigan boulevard!

City dwellers love their cities and why shouldn't they?

Joy abides among brick walls, as well as out with the cows and chickens. The meadows and the orchards have no monopoly of happiness or virtue. Even poverty, in the city's teeming tenements, goes hand-in-hand with laughter, and jest often marches in a comic lockstep with despair.

Remember this, back-to-the-farmers:

'Mid pleasures and palaces though we
may roam,
Be it ever so humble, there's no place
like home!

And a pleasant roadside cottage amid the fertile fields of Illinois may not be "home" to a boy or girl whose memory harks back to the Loop's hurly-burly and a North Clark street boarding house.

SWEDEN'S NEW CANAL.

(From the Boston Herald)

King Gustaf's opening of the Trollhatta canal should not pass unnoticed. Sweden must be congratulated on having been able to complete the work at a time in which she is greatly harassed by a war in which she has no part. Many a Swede in this country will be delighted to learn that Lake Wener now has an outlet to the Cattegat, and thus to the North sea, and will make a point of having a look at the canal if he revisit his native land. The lake is the third largest in Europe, having an area of 2,408 square miles, the northern half in Svealand and the other in Gothland, 150 feet above sea level.

It has been long connected by canal and smaller lakes with the Baltic on the east, but westward seemed its more natural way out, seeing that its waters, carried by the river Gota over the picturesque Trollhatta falls, are poured into the Kattegat at Gothenburg. For navigation a canal of about twenty miles in length was needed and it has taken seven years to build it.

The trade will be large and valuable. Around the lake are forests of firs highly prized for ships' masts, and the Svealand stores of iron and copper are almost inexhaustible. The direct water route to the North sea for the lumber and minerals of the big lake district will be a profitable improvement.

Passion and Intoxication Try to Win Youth in Great Morality Play Coming Here

One of the exciting scenes in "Experience" which comes to the Auditorium for one night only, Monday, December 11. Pictures shows Passion and Intoxication trying to win over Youth.

In "Experience," the most wonderful play in America, which William Elliott, F. Ray Comstock and Morris Gest will present, there is a delightful musical accompaniment through the play by Max Bendix and catchy songs and cabaret music by Silvio Hein.

There are 82 members in the cast and among the players are 40 stunning, beautiful and alluring young women. In the play, it is said, one enjoys the pleasure of anticipation to the fullest extent, awaiting each succeeding surprise, with keen delight.

1916 HAS PROVEN A HARVEST FOR NORTH DAKOTA REALTY MEN

Sales Reported Largest in History of State Home-Folk the Buyers

Nineteen-sixteen, following the bumper crop year of 1915, has proven a harvest for North Dakota dealers in farm lands.

The situation has been remarkable in that the business has not come from Iowa, South Dakota, Illinois, Indiana and Wisconsin and southern Minnesota regions which have contributed so much to the upbuilding of North Dakota but from the Flickertail state's own farmers.

The 1915 bumper wheat crop, with good yields of all other small grains, except corn, and with exceptional prices for flax, left the North Dakota farmer the most prosperous agriculturist in America. His average net earning for that year, the United States department of the census shows, was in the neighborhood of $2,500. At the same time, the entire corn belt suffered from an over-plus of rains. The Iowa and Illinois tenant-farmer who had been planning to buy in North Dakota found that he would do well to tide himself over the winter where he was. The Wisconsin and southern Minnesota farmer who had planned to sell out and buy more land in North Dakota, found that no one wanted his farm.

On the other hand, after buying his new car and taking a trip to the cities and putting in modern plumbing and a heating plant and electric lights, the North Dakota farmer discovered he still had more money than was good for him, and he turned covetous eyes on that neighboring quarter-section which he had long been wanting to complete his "patch." Maybe it was a section, or perhaps two or three of them. Anyway, he found he wanted it and that he had the money to pay for it, and he bought and paid cash, perhaps ten to fifteen dollars more the acre than he paid for his original place, a few years ago.

Practically all of the buying has been done by North Dakota farmers, anxious to increase their holdings by buying adjoining tracts, or who wished "set up" a son who had "went and got married."

DEATH TAKES MAN BUMPED FROM BRIDGE

(Continued from Page One)

then backed up," said the little witness. "Two men went down below and got some kind of cushion and took him on the train. Yes, I saw a whiskey bottle all broken up."

"Evidently, the man had been drinking?" was asked of the witness by Coroner Beers, who nodded his head. He made it clear that the train whistled before it reached the bridge because he was below and could hear it.

Another Student Testifies.

George Gillett was another student from the Indian school who was skating with Frank Young Eagle in the vicinity of the bridge. George told the jury he was "farming and going to school." He said he was thirteen years old, and was on the ice near the Missouri bridge at 3 o'clock. He said he was on the west side.

"He didn't get across," was his reply to the question asked whether he saw the man walking across the bridge.

"The train was coming," testified the little fellow. "He just lay down. I think he lay down to let the train pass."

"Yes, the train whistled and it stopped but I don't know what for."

He Saw Whiskey Bottle.

"Did you see anything strange, any glass or anything else around?" asked the coroner. The witness thought a moment and when a whiskey bottle was mentioned to him, he popped out: "I saw a broken whiskey bottle."

JOHN ANDREWS TO LEAVE STATE FOR WASHINGTON JOB

John Andrews this morning resigned the post of deputy secretary of state, which he had held for the last six years, and announced that he has under consideration a position at Wasington, which may take him from the state, temporarily at least. The resignation was tendered to Secretary of State Hall this morning, and if Mr. Andrews can be spared by the middle of the month, he will go then to the national capital to enter upon his new duties in an important and lucrative secretarial berth. Mr. Andrews also has under consideration two other propositions, and he is not prepared to state definite plans for the future. The action taken this morning had been under consideration for the last six months.

Is an Old-Timer.

The retiring deputy secretary of state has been a resident of North Dakota since 1888, when he accompanied his father, the Rev. Samuel Johnson, M. A., from the north of Ireland to Jamestown, where the divine became a member of the college faculty. After leaving Jamestown college, Andrews embarked in the newspaper game on the Hot Springs Daily Star, in what is now South Dakota. After learning his trade on the Star, Andrews, at the age of 17, became publisher of the Hermosa Pilot, being then the youngest publisher in the northwest. Later he became associated with the Casselton Casseltonian, now the Reporter, and at the age of 21, he bought the Lidgerwood Broadaxe, which he conducted until 1909, when he became managing editor of the Fargo Daily News, now the Forum.

In 1911, present Congressman P. D. Norton, then secretary of state, called Andrews to Bismarck to become his deputy, and Mr. Andrews has held that position ever since.

SIMPLE HOME TREATMENT FOR RUPTURE

Free Trial and Demonstration At The McKenzie Hotel,

Bismarck, N. D.

Rupture sufferers in and near this city will be given the opportunity of witnessing a most remarkable demonstration of what STUART'S PLAPAO-PADS do for suptured people. Those resiring it will also be given a liberal trial of PLAPAO for home treatment, absolutely FREE.

DOES AWAY WITH TRUSS

The PLAPAO-PADS are entirely different from the article commercially known as a "truss." In fact, they are designed to do away with bands of steel and rubber that chafe and pinch. Their remarkable success is due to the principle of keeping constantly applied the scientifically compounded absorbent-astringent medication called PLAPAO. The purpose is to contract and strengthen the weakened abominal muscles, thus closing the hernial opening as nature intended so the rupture CAN'T come down

Being self-adhesive, and when adhering closely to the body, slipping or shifting is impossible, therefore they are an important adjunct in retaining rupture that cannot be held by a truss.

Demonstrator Sechler will be at the McKenzie Hotel, Bismarck, N. D., Monday, December 4, only. Hours 10 a. m. to 7 p. m., and he will be pleased to give WITHOUT CHARGE, to all who call, expert advice and trial for home treatment. Do not fail to call on Mr. Sechler during his stay in your city.

Ask the hotel clerk to show you to the room where the "PLAPAO-PAD" man is demonstrating. 12-1&3

HANDS THAT ROCKED CRADLE MAKE SHELLS

Seventeen Thousand Women at Woolwick Supply Munitions for Husbands and Brothers

SALARIES RANGE FROM $15 TO $25 WEEKLY

Steady Work, Clean Lodging and Nourishing Food Flattering Working Classes

By MARGARET MASON.

The hand that rocked the cradle
Now makes shells that rock the world,
For female fingers fashion
Almost ev'ry bomb that's hurled;
And maidens, wives and mothers
All stand working, sun to sun,
With bits of glittering metal
That will kill men when their done,
Who knows, Oh Tommy Atkins,
As you throw that hand grenade
Perchance it's one of many
That your wife or sweetheart made.

* * *

London, Dec. 1. The early Victorian females, must raise their lily hands from their tatting and crewel work in horror as they look back across the River Styx and see how the hands of their twentieth century female descendants are occupied. I am sure they don't consider it maidenly or ladylike and yet these stanch and willing women munition workers of today are doing cruel work too.

Down at the big arsenal at Woolwich, just 30 minutes from London by train, 17,000 women from 16 to 50 years old at big machines are turning out with fleet and capable feminine fingers bits of glittering copper and aluminum and brass which, assembled into shells, bombs, hand grenades, cartridges and all those deadly and frightful weapons of modern warfare are dubbed munitions.

Not only are the wives, mothers, sweethearts and sisters of Tommy Atkins, the typical working women, employed at this new sort of fancy work but delicately reared and cultured gentlewomen as well are eagerly and efficiently doing their bit.

There is work for every grade and degree of age and mental and physical development. The pay for all is better too than the workers can get in any other sort of a position. It averages from 3 to 5 pounds or $15 to $25 per week. One time comfortable English households are plunged into chaos and gloom through the loss of the chambermaids, nursemaids and cooks who hear the siren call of the shrapnel and the shell. Mansions in Mayfair and the Park Lane, hovels in Whitechappel and the East End disgorge alike their bits of feminity into the insatiable maw of the government arsenals.

Never have so many furcoats, never has so much jewelry been sold in London as at the present moment and the women munition workers are the busy little buyers. The first thing a poor little erstwhile factory slavey does when she draws her first princely (in proportion) pay check at the arsenal is to treat herself to all the cheap jewelry her little starved feminine heart has craved her whole life long. She may top off with a warm coat of fur and after this reckless spending orgy she is content to settle down and save her salary with the exception of what she spends daily on real food. And my how she does eat!

There are canteens established at the different arsenals where the girls may get the most nourishing food for the cheapest rates. Four meals are served a day breakfast, lunch, a very high tea at a very low price and dinner. There also are lodgings established near the arsenal for all those women who wish to live close to their work. These are called hostels and furnish comfortable and sanitary rooms for a modest sum.

At Woolwich, under the wise and human jurisdiction of Miss Lillian Barker, the government lady supervisor, the women workers are like one huge family or a school for girls. All sorts of things are provided for their amusement and instruction in their recreation hours. There are dancing classes, amateur theatricals and educational courses.

Long Hours.

So, although the work is strenuous and the hours long, the effect on the women of this steady work, good pay, nourishing food, clean lodging, fresh air and above all, blessed spirit of independence they have attained, is working miracles with English womankind.

Thanks to their munition work they will be fit physically, mentally and financially to take up the burdens of their poor maimed and broken menfolks after the close of the war.

Strange and yet fittingly simple isn't it, that these same deadly bits of metal shining beautifully golden in the sun should be bringing death and destruction and disfigurement to the one, health, prosperity and life to the other.

BANDITS KILL BYSTANDER IN STREET DUEL.

Cleveland, Neb, Dec. 1. In a running street battle between automobile bandits and the police, Earl Mueller, an innocent bystander, was killed. The bandits escaped. It is possible that one was killed.

Firemen Give Dance.

The firemen's dance last evening, held in Patterson hall, was one of the most enjoyable events ever given by this organization. Firemen, their wives, sweethearts and firends enjoyed the dance to the strains of O'Conner's orchestra from 9 o'clock until 2. Nearly 200 tickets were sold.

WHEAT SLUMPS AFTER OPENING

Chicago, Dec. 1. Wheat had fallen off here today after a higher opening. Reports that railways will not accept grain shipments for export trade because of a partial tie-up in ocean shipping, due to submarine activity, caused a decline in wheat and other grain. December was down two cents below today's opening, at $1.69; May, down 1½ cents at $1.76½; July, down 1¾ cents at $1.44.

Corn followed the decline in wheat after a higher opening. December was down 1⅛ cents at $.88⅛; May, down 1⅝ cents at $.91⅛; July, down 1½ cents at $.91.

Oats was lower. December was down 1⅛ cents at $.53; May, down ⅜ cents at $.57⅜; July, down ⅜ cents at $.53⅛.

Provisions were steady.

Chicago, Dec. 1. Extension of railway embargoes on export shipments and provisions sent the market down sharply today. December closed down 4 at 67; May, down 4 at 74; July, down 3⅛ and 42⅛. Other grains and provisions sharply lower.

STOCK MARKET HAS REVIVAL

New York, Dec. 1. The stock market opened strong today, after three days of generally reactionary movement. United States Steel, common, sold today with last divident of 2¼ percent subtracted, opening at 135½, equivalent to quotation of 127¾ on Wednesday.

Union Pacific was up one point at 147⅞; American Car and Foundry gained 1½ to 74; Republic Steel, 1⅛ to 83½ and Corn Products 1⅛ to 27½.

Ohio Cities Gas jumped 9⅛ and American Hide Leather advanced to 79¼ during the morning's session. International Paper sold up 21½ to 65½. Missouri Pacific sold up 1⅞ to 31⅛. Reading sold above 1¼ and Rock Island crossed 36 irregularly in the general list which developed around noon.

Announcement before the market closed that Morgan & Co. would not issue Allied Government exchequer bills caused a five-minutes rush at the close. After some confusion, advances or one to three points by speculative leaders were general.

BISMARCK TO ENTERTAIN AUTHOR AND LECTURER

Not only the suffragists but all the women and men of the Capital City are interested in the coming of Mrs. Nellie L. McClung, noted authoress and lecturer, who will give one of her famous lectures next Wednesday eveing in the Audtorium under the auspices of the local Votes for Women league.

Mrs. McClung, who is Canada's most distinguished leader in the cause of woman, is probably the best known and most popular woman lecturer before the public today. Where ever she appears hundreds are turned away.

Last year in Minneapolis the large auditorium was taxed to its capacity and many were unable to get inside. She has ben engaged for two nights next week in Minneapolis in order to accommodate the crowds.

Mrs. McClung will make Bismarck her first stop in North Dakota, coming here direct from Minneapolis. She will also speak while in the state in Grand Forks and Fargo.

The lecture next Wednesday evening will be free to the public and local suffragists are making extensive arrangements to accommdate a capacity house.

HAS $10,000,000 FUND FOR WOMEN

BINA M. WEST

Miss West has created a reserve fund of $10,000,000 for the use of women only. It is the result of 24 years' growth of her system of fraternal insurance for women. The Woman's Benefit association, of which she is head, was founded in 1892, in Port Huron, Mich. She has paid out $14,000,000 in benefits.

LATEST FASHION NOTES.

Lustrous cloth of gold is among the latest word in material for evening gowns. One model developed from this material was banded in turquoise velvet. The bands bridged the shoulders and disappeared beneath the corsage, only to reappear again on the upper part of the skirt. There a magnificent embroidered motif is cleverly wrought upon the soft, lustrous folds of the skirt and some of these are slightly uplifted so that the ribbon loops extend a trifle below the hem of the gown. The corsage was exceptionally lovely, for the solitary motif that spreads across the cloth of gold is embroidered in heavy silk in turquoise blue, pale violet and green.

Black chiffon velvet is one of the leading materials for afternoon and evening dresses, and while the season is marked by many high colors, yet this sombre velvet is a favorite with not only the matrons, but with the younger set.

Cloth of silver rivals the cloth of gold and is used in fashioning gowns for the debutante.

GRAND OPERA ASSURED FOR CITY

Details Completed Today by Advance Manager of the San Carlos Company

Representatives of the San Carlo Grand Opera company, that celebrated organization of songbirds which is to appear at the Auditorium on Friday and Saturday evenings and Saturday matinee, December 15 and 16, completed today, with Mrs. W. F. Cushing, local manager of the engagemnt, all details of the two days of song. The event bids fair to overshadow in musical and social importance any theatrical affair of the season, it being the plan of the San Carlo management to bring the entire organization, of upwards of a hundred people, here, the complete grand opera orchestra carried by the company, and the twenty eminent singers, comprising it's roster of principals.

The organization uses a special train of six cars, and the cities where the San Carlo stars have given the opera "season" thus far upon the present tour include Montreal, Quebec, Toronto, Boston, Albany, Rochester, Syracuse, Cleveland, Detroit, St. Louis, Kansas City and several others where the love of opera is of long standing. Sioux City will hear the songbirds directly ahead of Bismarck, and Winnipeg will have them for eight performances right after the local engagement.

Mrs. Charles R. Baker, advance manager of the San Carlo company, in the city this morning, stated that the repertoire selected for Bismarck included four of the most popular operas of the song world, and were chosen for the reason that the casts embrace every one of the foremost singers of the company, and may be heard by all who attend the series.

Mr. Baker said that the identical scenic and costuming effects used in the large cities could be used here, and the operas will be staged upon a plane of traditional excellence and beauty, with the splendid chorus of 40 trained voices appearing in each production. The operas are: Friday evening, Dec. 15, Lucia Di Lammermoor; Saturday, matinee, the ever-welcome double bill (two operas), Cavalleria Rusticana and Pagliacci; Saturday evening, Vardi's spectacular and massive work, Aida. Each bill will be supplied with a different cast of principals, and Salazar, the eminent Spanish tenor who replaced the great Constantina with the San Carlo forces last season, will sing his great role of Radames, in the last-named opera. The regular seat sale will open on Tuesday, Dec. 12, at Finney's drug store. Mail orders will be received from this time forward.

ACTIVITIES OF WOMEN.

The city director of Rochester, N. Y., will hereafter contain, in addition to the names of men residents, the names of their wives. This is the first time this step has been taken.

What four women have done to better farm conditions for the wives of farmers in British Columbia, should not stop on the northern side of the Canadian line. Under the sanction of the Canadian government, four women were appointed an advisory board to the British Columbia department of agriculture. Women agricultural institutes, to which farm women could carry their problems, were set on foot with results which have remedied many of the problems driving women off farms and into the towns. Frequent conferences of the four women of the board, with the women living on the farms have led to such recommendations by the board to the government as have already made rural life more possible and have checked migrations to congested centers. It seems to have paid the Canadian government to get the point of view of women in answering the problems of the rural regions of the provinces.

"DOLLY" ELDER SIGNS CONTRACT FOR LIFE JOB

Former Captain of Bismarck Team Wedded to Miss Catherine Hamilton

LEAVE FOR IOWA TO MAKE THAT STATE THEIR HOME

By "GILL."

Jamestown, N. D., Dec. 1. "Dolly" Elder, captain and speedy shortstop of the championship ball club which represented Bismarck during the past summer, signed a life contract in Jamestown yesterday morning. He was united in marriage to Miss Catharine Hamilton, daughter of Mr. and Mrs. Dan Hamilton of this city. The ceremony was performed at 10:30 o'clock by the Rev. Father Geraghty.

The bride is one of Jamestown's most popular young ladies and her many friends have wished her Godspeed in her undertaking to "pilot" the well known diamond artist.

"Dolly" is known in practically all sections of the state, for his stellar work while pastiming with the Jamestown club and later with the nine that carried the Capital City to the championship of the western division of North Dakota.

The couple left on No. 4 yesterday morning for Knoxville, Ia., where they will make their future home.

BASKETBALL TITLES TO BE SETTLED IN MARCH

Devils Lake, N. D., Nov. 27. The board of control of the High School league of North Dakota has arranged for the district and state basketball tournaments to be held next March. The four district tournaments will be held at the university, the Minot Normal, the Valley City Normal and the Mandan high school, on Friday and Saturday, March 2 and 3, 1917.

The state tournament will take place two weeks later, at the university. Only schools belonging to the High School league are eligible to participate in the district tournaments. The four winners of the district tournaments participate in the state tournament, and play for the state championship.

Egg Used as Football at Gridiron Banquet

Jamestown, N. D., Nov. 29. A football game played between the teams chosen by the captain and the captain-elect in which the football was a decorated egg and tossed across the table was one of the features of the banquet given by the mothers of the members of the high school team of this city at the home of Mrs. Frank Rathman last week.

Plates were laid for 18. A four-course dinner was spread. Decorations were chrysanthemums, lambs and footballs. The fire-place was decorated with the pictures of the football teams of former years. The waiters were dressed to represent darkies. They were Woodward, Plank and Upshaw.

The farewell to the team was given by Floyd Rathman, captain and quarter-back, undoubtedly the speediest high school quarter in the state. "Lambs That I Have Known," was the title of a toast given by Professor King, and "Honest Opinion of the Team," was given by "Baby" Lamb, the coach.

Following the banquet, Spencer was elected captain for the season of 1917.

GAY AND SPORTIVE CROWD WATCHES NORTH DEFEAT CAPITAL CITY GRAPPLER

Before a crowd of several hundred many of whom were his former playmates and class allies with whom he had played marbles and hookey, visited the old swimming hole and teased the teacher until her wrath brought down the ruler on a puffed chapped hand B. North of Minot, a young wrestling apostle, capsized all barges of advance dope by pinning the shoulders of Joe Novak twice in succession to the mat at the armory Wednesday evening. The match was for the house receipts which amounted to $114.

Looked Like Judgment Day for Novak

The rigid physique of Joe Novak made so after a summer spent in traveling with a carnival company during which time he faced all comers, could not tide over the inexorable grips which the Minot boy fastened onto him. From the second that the two slinked onto the mat, North had Joe worrying as though the judgment day were near. Novak was game but when, after 21 minutes of casting for a grip which would stick and finding instead a body scissors locked on him, Novak lost his color and gave up the second fall to save himself from the kidney punishment which was being administered by North. He reeled over on the west side of the mat. Referee Roberts stepped forward and patted the winner on the back.

First Fall to North in 14 Minutes.

It took B. North, unquestionably now the middleweight champion of the state, just 14 minutes to toss the Bismarck hope for the first fall. It came by means of a hammerlock and a half Nelson. Joe developed speed and action and sought to punish his opponent from the start with head rushes which would upset both who would go down with a terrific thud, sometimes hitting the mat and other times the bare floor, but Joe's style of work was not effective. Novak doubtlessly would have been thrown sooner in the first fall, if the situations or complications which North worked him into were not saved by both being off the mat. Referee O. W. Roberts loosened the grip each time and ordered them on the mat. Once or twice during the second controversy for the house receipts, Novak got North into dangerous territory but the Minot lad worked himself out of custody like a stage baffler.

It Was a Sportive and a Gay Crowd.

It was a sportive and a gay crowd which broke loose to become spectators at the first big wrestling card of the season. It was a crowd which appreciated the bill and didn't miss the 50 or 75 cents admission tax. A tension gripped the spectators from the start, seldom seen unless a good match is arranged. Women mixed in the crowd. At times it was "Oh, Joe!" and again "Oh, North!"

The popularity of the ringside seats was tested early in the day by the sales at several of the hotels. Betting continued at the armory, even wagers being offered. Wilcox, a brother-in-law of North living in Bismarck, bet heavily on the Minot boy and picked up a number of green Williams at the armory. After the match a proprietor of a local hotel handed over $100 to Wilcox in bets which he had won and placed earlier in the day. Wilcox was the heavy winner.

North Learns What Service Is.

A score of town fellows who once wore knee trousers and played with North, ran to him after the match was over. They even followed him into the shower bath rooms. One carried his sock, another his sweater, a third his collar and tie and a fourth probably one of his shoes. North's duds came to him in pieces. For the first time since his arrival in Bismarck to train for the match he learned what service is in Bismarck, and that popularty plays an important rank in bringing it.

Novak Leaves for Minneapolis.

Novak hastened to his room in the Van Horn after the defeat. He was a disappointed man. A mesenger called at the room. An envelope was delivered. He opened it. It contained $2.50. It was from North.

There never was a tragedy yet which a woman couldn't heal. So Joe struck out for Minneapolis to spend Thanksgiving with his wife, leaving behind a challenge that he is willing to meet North a week from tomorrow for the house receipts and a $100 side bet. Joe stated that he was going to train for two weeks in Cook's gymnasium and then probably return to the Capital City with his wife.

If two weeks' time will do the work and Joe is willing to sacrifice a $100 on the wrestling altar of chance and go in for the house receipts, it might be possible that the fans of Bismarck would stand for a return match between the two. As shown last Wednesday night, Novak was not the man of last year. Again, it is to be taken into consideration that it was his first hard match of the season.

Bean and Rentrop at Ringside.

Notable wrestlers who arrived in the city and were spectators were Alec Bean, formerly of South Dakota, who wrestled Rentrop at Wilton last night, and Charley Rentro, besides several others who are blossoming out in the game. Bean brought down a bunch of fans from Wilton who made the trip by machine, leaving the city about 11 o'clock. They were unanimous in stating that the Novak-North card was one of the speediest they had seen.

SECRET OF MAKING MONEY IS OUT BUY YOUNG BASEBALL "STARS" CHEAP AND DEVELOP THEM

War babies aren't the only mediums for getting rich quick in these days of high finance. Baseball players, if bought right and selected carefully give even better returns, as shown by the case of Roger Hornsby, sensational third baseman of the St. Louis Cardinals.

Hornsby cost the Cards $500 when he was purchased from Fort Worth. A year later he was valued at $10,000.

When he joined the St. Louis club he looked anything but promising and the club magnates had about decided their money was wasted.

He was thin and looked weak. He had a bad position at the bat, looked like a schoolboy in the field and batted miserably.

During the winter he trained carefully, changed his batting style and dieted, and when he showed up last spring he was 30 pounds heavier, fielded cleanly and hit like a demon.

BERNARD AND OTNESS READY FOR THE WORK

(Special Correspondence.)

Jamestown, N. D., Nov. 28. Tony Bernard, noted South Dakota wrestler, and Al Otness, who hails from Minnesota, have arrived in this city, preparatory to their match, billed for Thanksgiving day. Both men are middleweights. Bernard and Otness are both in the pink of condition.

TOWER CITY TO HAVE BASKETBALL "QUINT"

(Special to the Tribune.)

Tower City, N. D., Nov. 27. All indications are now that Tower City will enter a speedy basketball team in the race for the basketball championship of the state this year. This village has for several years held the distinction of having the best basketball team in the state.

Typewriter Service in Rural Communities

The typewriter is coming into more extended use in rural communities because of the assistance it renders to all classes of people. Here are a few examples of the possibilities of service:

The Farmer: Think of the possibilities of selling produce by the means of typewritten letters sent out to customers? Typewritten letters give the sender a business standing with the people who receive them and also enable the keeping of carbon copies of the correspondence, which many times does away with misunderstandings and lawsuits.

The General Store Merchant: More prompt and courteous treatment is likely to be accorded his orders and correspondence with the City jobber and manufacturer if his letters are typewritten.

In The Home: The boy or girl who is intending to follow a business career can secure no better start than a knowledge of typewriter operating. Children who learn to use the typewriter learn spelling at the same time. The housewife finds it a great convenience in writing recipes and for general correspondence.

The Minister: No Clergyman should be without a typewriter. It is of great assistance in preparing sermons and writing the many letters that a pastor has to write.

1916 BANNER YEAR FOR A FOOTBALL 'WORLD SERIES'

The 1916 football season, just drawing to a close, offers an opportunity for a football "world series" never duplicated in past seasons.

With one exception, the middle west, the championship has either been decided, or could be in a single game, and the sectional winners could participate in a series which would leave no doubt as to the abilities of the teams in those parts of the country which are seldom recognized by eastern and mid-western experts.

The championship of the east could be decided by a game between Brown and Pittsburgh. There is not a team which could dispute the winner's titular honors, except the Army, which is not included on account of not playing under conference rules.

In the middle west the right of the winner of the Ohio State-Northwestern game to hold the title might be disputed by Minnesota, which in spite of an early defeat by Illinois, has developed a remarkably powerful offensive, as indicated by the Wisconsin score.

In the south, Georgia Tech, with the wonderful Strupper, has the undisputed call for premier honors and in the far west, Coach Dobie's Washington aggregation, by the defeat of California Saturday, looks far and away the best.

A four-cornered championship series featuring Brown or Pittsburgh, Minnesota or the winner of the Ohio-Northwestern game, Georgia Tech and Washington would decide the merits of the great college game in each section and put the business of selecting an all-American team on a basis where the man who plays a few hundred miles from New York would be given an equal chance.

STRANGER TELLS SHERIFF SUICIDE WAS MURDERED

Fargo, N. D., Dec. 1 "That suicide was a murder this is the right dope." Sheriff Ross received this information when he lifted the receiver from his telephone this week. A man whose name could not be learned had telephoned the information from a north-side grocery store. This is the latest bubble in connection with the finding of the body of a dead man with a bullet hole thru his head here last week. "French Joe," who operates the Belmont hotel on Front street, had identified the man as E. J. Galt.

League Will Go Through With Project for State-Owned Packing Plant

The Non-partisan league does not stand sponsor for the Equity Co-operative Packing plant to be located in Fargo. In fact, the official organ of the league, the Leader, in this wek's issue, indicates that the league is very much opposed to the Equity plant or any other which conflicts with the league's program for a state-owned and operated plant.

Otto O Hoffman, a Cooperstown member of the Non-partisan league, writes the Leader as the official organ of the league, stating: "We have in our community a party (said to be from Fargo) selling shares in a packing plant which is to be located in or near Fargo, the city having donated a tract of 200 acres for the location. What I would like to ask is this, do you sanction the movement or oppose it? As I understand it, the league stands, or has stood, for state ownership of terminal elevators, packing plants, flour mills, etc., ever since its organization. And as a large majority of the league members in this community are taking stoc kin this packing plant, it seems to me they are working against their own interest in case the league program is carried through in regard to state-owned packing plants."

In reply to the member's query, the Non-partisan league, through its official organ, the Leader, says:

"You ask 'whether the league sanctions' any movements on at present for a packing plant other than a state-owned one. he Leader has nothing to do with any such plan. It stands firmly on the proposition for a state-owned plant, the plan the overwhelming majority of the people of the state have approved, and the Leader belie that only through the building (state-owned plant and the solid support of the farmers for it can the evils growing out of the packing combine be met successfully.

"We have not discussed the matter of packing plants before because we could not know until after election whether the people wanted the league program carried out or not. If the North Dakota people wanted the league program carried out they would elect men pledged to carry it out. North Dakota by the most decisive majority in the history of the state elected the men pledged to carry out their program. He men elected are not political fakers. The state will, therefore, have a state-owned packing plant."

Solicitors Misrepresent.

The Leader has information that solicitors selling packing plant stock have intimated that the league is not going through with its plan for a state-owned plant, and taht the people must build a plant by private subscription; that with the plant they will build, the people will not need a state-owned plant.

"The Leader takes this opportunity to say," reads the statement, "that if any such statements have been made, they are false and calculated to disrupt the Non-partisan league. The Leater and the leaders of the league are going through with the league program from top to bottom, because they believe in the program and because they have no other course. It is the mandate of 40,000 members of the league and of the people of the state as a whole that the entire league program be carried through Any other course would disrupt the league.

No Other Plant Will Do.

..No kind of a packing plant except one owned by the state will successfully solve present North Dakota problems growing out of the packing house combine. Do not be misled by any statements to the contrary."

The Leader cautions the farmers against dividing on the packing plant proposition, as the "quickest and surest way to kill the league."

What the Equity Says.

The Equity Co-operative Packing company announces from Fargo that it will begin building operations this winter. "Stock sales," reads a statement issued by a representative of the company, "have exceeded the most sanguine hopes of the men who have been active in boosting for a North Dakota packing plant, and the decision to begin building operations this winter was in response to the demand of the farmers that the plant be built and equipped as quickly as possible. Farmers of every section have shown a tremendous interest in the enterprise. Already nearly $400,000 in stock has been subscribed, and it is expected before January 1 at least $600,000 of the million dollar issue will have been taken."

To Begin January 1.

An agent of the Equity corporation states that, while it was originally planned to begin operations in April, stock sales have so far exceeded expectations, that construction will be commenced January 1. "Over 10,000 farmers," he states, "have already subscribed for stock. These men are scattered all over North Dakota, and there are some in South Dakota and in Montana, with many in northwestern Minnesota. Most of the stock has been sold in small lots, a few shares to each farmer, and there are several townships where every farmer is a shareholder in the Equity Co-operative Packing plant.

Straight Co-operative Plan.

"The plant," the company's representative announced, "will be run on a straight co-operative plan, paying 8 per cent on the capital and dividing the profits with stockholders on the basis of their patronage. A board of directors will be elected at a mass meeting of stockholders in Fargo on January 17, 1917. Ample capital is in sight to make this big institution a credit to the entire state and from it develops a number of profitable packing plants over the state.

Many Salesmen Out.

"Nearly 100 men are engaged in selling stock. The organization is covering all the territory tributary to the plant, and the institution promises to be one of the most pronounced successes of any of the co-operative enterprises yet inaugurated by the Equity."

Will It Mean Friction?

The Equity and the Non-partisan league have operated to date in complete harmony. There is a sort of interlocking directorate, and the interests of the two organization have appeared one. It was hinted when the League exchange was organized that the entrance of the league into economic fields of activity might conflict with the Equity program, but the first intimation of any actual difference came in the Non-partisan Leader's two-column announcement in this week's issue.

Grand Forks also has a packing plant project, independent of either the league or the Equity, proposed as a private commercial enterprise. Mandan, providing it does not succeed in procuring a state-owned plant from the next session of the legislature, may get into the game independently. It looks as though too many cooks might spoil the broth.

Just One More Week to Go and then this Great Sale Ends

Take notice, take notice, you few scattering clothes-buyers who haven't yet been heard from.

We don't want any man's failure to share in this good thing to be placed as a burden upon our souls. We don't want anyone who neglects to provide for future Clothing Wants and who repents later to say he wasn't forewarned. Hence this final admonition.

Despite the heavy selling, our selections still have the freshness and the variety every man wants. In Suits there are models with soft roll fronts, with "just enough" fronts; models with regular pockets; models with one button, two buttons, three buttons. In Overcoats, there are single breasted, double breasted, box coats, form fitting coats, light weight coats and coats heavy enough to laugh at the coldest blasts.

MUST COMPETE WITH FARMERS' ORGANIZATION

Non-Partisan League Conducting a Large Immigration Bureau

CLEARING HOUSE FOR REAL ESTATE SALES

North Dakota real estate dealers are to enter into competition with a million dollar corporation, financed by the farmer, officered by the farmer and with farmer agents.

The League exchange's incorporation by the Nonpartisan Farmers' league, the political body whose 50,000 members made a clean sweep at the recent election, remained for a number of weeks a deep mystery. No one, not even the "Big Five" of the Nonpartisan league, seemed to know, or to be willing to import, just what the exchange meant or what it stood for or what it would do. It was known that it had incorporated for a million dollars, paying into the secretary of state's office the largest incorporation fee received in a year; and that was about all that was known or could be learned.

Wood Makes Announcement

Now comes the announcement of the purpose of the League Exchange by F. B. Wood, president of the exchange, also one of the Big Five in the Nonpartisan league, also manager of the Equity Live Stock exchange at South St. Paul. In announcing the why and the wherefore of the League Exchange he says:

"The object of the League exchange is to list your land at your price and then direct the land buyer to your farm where he can buy your farm at your price."

The land-owner will pay at the time of listing his land one dollar, and then he will pay, when the land is a five per cent commission "this commission to pay the expenses and to maintain the real estate department of the League Exchange."

Mr. Wood further announces that the League Exchange is an organization of North Dakota farmers to protect land-owners and land-buyers; that it is an organization composed of league members and owned and controlled by them.

There is nothing in the articles of incorporation which confines membership or ownership to league members. The articles would indicate that anyone who is willing to part with $100 may own a share of League Exchange stock. The management, it is true, is vested perhaps more wholly than is general among corporations in the board of directors, or an executive committee of three whom the board may name, and the directors are prominent Nonpartisan league men.

Murphy Beat 'Em To It

In its effort to protect the farmer and the land-buyer, the League Exchange has been anticipated and gone one better by the Soo Line, whose general immigration agent, Major J. M. Murphy, several years ago inaugurated the policy of selling lands located anywhere along that railroad for $1 the acre, regardless of the purchase price, and Major Murphy asked no registration fee. "Only One Dollar Between You and Your Land," is the slogan which Major Murphy has carried for years, and under which he has sold hundreds of thousands of acres of North Dakota soil.

And, at that, the major hasn't put any old line real estate agents out of business. Some of the most successful dealers in farm lands in North Dakota are located at Garrison, Underwood, Napoleon and other exclusively Soo Line towns.

Influx Predicted

The league exchange predicts a great influx of land-seekers to North Dakota. It say in its recent announcement:

"North Dakota has received more national advertising during the past year than any state in the union because of the Farmers' Nonpartisan league and its activity. Millions of farmers outside the state have their eyes on North Dakota. When the farmers secure complete control of North Dakota, and with the carrying out of the farmers' legislative program; the passing of laws making farming more attractive in North Dakota; the establishment of North Dakota markets for North Dakota products; the giving of state hail insurance to the farmers; the exemption of farm improvements from taxation; the establishment of just grades and dockage of grain, will bring thousands upon thousands of farmer someseekers into North Dakota."

Farmer Legislation

North Dakota is due for a great immigration movement. Less than forty per cent of the state's 45,000,000 arable acres are under cultivation; not over sixtey per cent of this area is included in farms In 1915 North Dakota led all other agricultural states in farm production per farm capita, $632, as shown by the Nebraska state board of agriculture; and in farm production per capita for all the people of the state, $350. Nowhere in America are better lands to be found at a price so low. The best land in the state sells around $90; there are still hundreds of thousands of acres of raw prairie to be had for $17 to $20, and cultivated, improved lands at $20 to $50. Western North Dakota, in which the bulk of this land is located, has grown since North Dakota became a state, in 1889, from a frontier country of 31,450 people, to a great, prosperous commonwealth of 318,513 people.

HOW GOOD THAT MUSTEROLE FEELS!

It Gets to That Sore Spot Like Magic

A-a-h! That's delicious relief for those sore muscles, those stiff joints, that lame back.

Musterole is a clean, white ointment, made with the oil of mustard and other home simples.

ROAD-BUILDING ROMANCE CULMINATES IN WEDDING

A romance which had its beginning in the camp of the Burleigh county road-grading crew early last summer culminated happily in Judge H. C. Bradley's court Wednesday afternoon, when Lewis LaLene of Bismarck, and Miss Emma Novak of Wing, were united in marriage.

The groom was employed during the season on one of the large county tractors. The bride, with her sister, Miss Mary Novak, was engaged in the commissary department. Lewis and Emma lost very little time in falling in love. Both were shy, however, and Dan Cupid was not given a fair chance to score until J. W. Friddle, in charge of the road-work for the county, intervened. A Sunday drive to the Hay-Stack buttes, arranged by Friddle, netted one engagement ring, and from that day until the close of the road-building work, the romance was one of the pleasant features of camp life.

Wednesday when Mr. LaLene and Miss Novak sealed their vows in wedlock, quite properly Mr. and Mrs. Friddle "stood up" with them. The happy pair will make their home in Bismarck.

Brother Injured

It had been planned that the bride and groom would be attended by Joseph and Mary Novak of Wing, brother and sister of the bride. While driving in to the station to entrain for Bismarck on Tuesday, Joe Novak tried a short sprint behind the buggy as a means of warming up, and in climbing back into the rig, a wheel passed over one of his feet. The young man came on to Bismarck for the wedding, but the injured foot pained him so that he was compelled to return home with Miss Mary Novak on Wednesday morning.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 252-C, Marcellus Avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured you may save a life or at least stop the misery of rupture and the worry and danger of an operation.
